

HMW

1. How might we create a good representation of the weather?
2. How might we make a more usable app for surfers of all skills?
3. How might we improve upon existing weather apps and radars to make a unique and usable app?

POV

Users	Need	Insight
A surfer who needs weather insight before heading out.	To show accurate weather information for surfers.	Users need a precise and easy-to-use app that can allow surfers to see beaches, weather, and waves around the world quickly and for free.
